DETAILED ACTION

After Final Amendment

The After Final Amendment filed on March 15, 2005 has been received and made of record. In response to the FINAL office action, claims 1, 9, and 10-12, have been amended.

Response to After Final Amendment

Regarding claim 10, Applicant's amendment is found to correct the original failings in which the prior language did not conform with current U.S. practice, and is now found to particularly point out and distinctly claim the subject matter which the Applicant regards as the invention. Therefore, the 35 U.S.C. §112, second paragraph, rejection to claim 10 is hereby withdrawn.

Allowable Subject Matter

Claims 1-12 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach or fairly suggest an indicator, indicating a mode corresponding to a symbol chosen on a mode selecting operation member, in combination with a light source for lighting the indicator, the light source indicating at least two conditions of a digital camera with the conditions being unrelated with said opted mode;

Regarding claims 2-8, the prior art fails to teach or fairly suggest these limitations in combination with the claim(s) from which dependence is derived;

Regarding claim 9, the prior art fails to teach or fairly suggest a lighting of an indicator, the light source indicating at least a condition of said digital camera by lighting state of said indicator, said condition of the digital camera being unrelated with said opted mode and indicating at least one of auto-focus is in operation, camera-shake warning, writing to a memory card, the memory card is not inserted, the digital camera is malfunctioning and a flash device is being charged;

Regarding claims 10-12, the prior art fails to teach or fairly suggest these limitations in combination with the claim(s) from which dependence is derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
